

BIBUS METALS

European Union Directive 2011 / 65 / EU RoHS II

We confirm that BIBUS METALS is acting as Service and Distributing Trading House and not as a producer for semi-finished products in Nickelbased Alloys and Titanium/Titanium Alloys. Our producers are obliged to secure the RoHS II directive according 2011/65/EU.

To our best knowledge, the material supplied by BIBUS METALS is compliant with the requirements of the European Union Directive 2011/65/EC (the EU RoHS directive). The content of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), or polybrominated diphenyl ethers (PBDE) do not exceed the maximum concentration values for such substances in homogenous materials of up to 0.01% by weight for cadmium and 0.1% for the other substances. The content of these substances is negligible.
